

DK-1300A | High-speed Ink Roll Coder

- ◆ Got China national high-tech patents.
- ◆ The fastest Ink Roll Coder in market.
- ◆ Adopting high-speed motor & encoder, ensures reliable performance and accurate print position.

Specifications:

Print Area	T-Type(Axial) ≤ 13lines, max 20 characters per line
	R-Type (Radial): ≤ 10lines, max 13 characters per line
Type sizes	T-Type: 1.5T, 2.0T, 2.5T, 3.0T, 2.5*7T
	R-Type: 3.5R, 4.5R, 5.5R
Pouch Length	≥ 38mm(4-up printer)
	≥ 75mm(2-up printer)
Ink Roll Required	Φ36*32 mm, Φ36*35 mm, Φ36*40 mm
Electricity	AC220 ±10V, 50/60 Hz
Power	140W, 2A fuse
Weight	Printer Unit:4kg, Controller Box:2kg

Print Sample:

- ◆ Installed on continuous flow wrapper, max speed is up to 600ppm.
- ◆ Friendly LED interface, Chinese/English menu.
- ◆ Multiple print modes optional for all kinds of applications.
- ◆ Multiple signal modes, like PNP, PNP, PLC.
- ◆ Error alarm, like miss printing, error printing.
